PROFESSIONAL SUMMARY

A highly motivated Software Engineering graduate with a strong academic record and hands-on experience in software development, research, and industry projects. I am passionate about applying software engineering principles and emerging technologies to develop practical solutions to real-world problems. I am committed to building a long-term career at the intersection of software engineering, research, and intelligent computing, and I aspire to contribute meaningfully to the field through impactful research and technology driven solutions. As part of my preparation for this career, I want to pursue an MSc in Computer Science (specializing in Software Engineering) to strengthen my skills in artificial intelligence, machine learning, and data analytics.

Research Interests: Applied Data Science, Artificial Intelligence, Data Analytics, Generative AI, Intelligent Software Systems, Machine Learning, Natural Language Processing, Software Engineering, Software Quality and Reliability.

EDUCATION

First Technical University (now Abiola Ajimobi Technical University) Ibadan, Nigeria **2021 - 2024**
Bachelor of Science (B.Sc.) in Software Engineering

- Final CGPA: 4.45/5.00 (equivalent to 3.56/4.00 and 89%).
- Second-Class Honors (Upper Division), Top 10% of the Graduating Class.
- Best Graduating Student in Operating System I, Human Computer Interaction, Software Engineering Professional Practise, and Fundamentals of Data Structure

Key Courses: Algorithms and Complexity Analysis, Artificial Intelligence and Expert Systems, Data Structures and Algorithms, Discrete Structures, Human Computer Interaction, Modelling and Simulation, Research Methodology in Computer Science.

First Technical University, Ibadan, Nigeria **2021 - 2024**
Diploma in Entrepreneurship

- Upper Credit, Top 10% of the Graduating Class.

First Technical University, Ibadan, Nigeria **2021 - 2024**
Diploma in French Language

- Lower Credit

SKILLS AND COMPETENCES

Research and Professional Skills: Research Methodology, Critical Thinking, Problem Solving, Experimental Design, Data Analysis, Model Evaluation and Validation, Technical Research & Documentation, Software Development, Project Management, Leadership & Mentoring, Team Collaboration, Communication.

Technical Skills:

Artificial Intelligence & Data: Machine Learning, Generative AI, Natural Language Processing, Applied Data Science, Data Analytics, Python, SQL.

Software Engineering & Web Development: React, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, Node.js, Express.js, Django REST API.

Databases & Development Tools: PostgreSQL, MySQL, Supabase, Prisma, Git, GitHub, Postman, Vite.

Research & Analytical Tools: Statistical Analysis, Data Visualization, Performance Evaluation, Software Testing & Quality Assurance.

RESEARCH EXPERIENCE

Research Assistant (NYSC) **Sept. 2025 – Sept. 2026**
Department/Faculty, Delta State University, Asaba, Delta State, Nigeria.

- Supported research activities under the supervision of Associate Professor Jude Sinebe, applying knowledge of computer science, software engineering, artificial intelligence, and data-driven methods to research and technical problem-solving.
- Contributed to research activities involving data analysis, computational problem-solving, literature review, technical documentation, and interpretation of research findings.
- Applied software development and analytical skills to support research tasks, including the use of computational tools and digital technologies for data processing, analysis, and research documentation.
- Collaborated within an academic research environment, strengthening practical experience in research methodology, critical thinking, technical communication, and independent problem-solving.

Research Assistant **Sept. 2024 – April 2025**
Department of Computer Sciences, First Technical University, Ibadan **Supervisor: Dr. J.E.T. Akinsola**
Thesis Title: Development of a Hotel Management System with Location-Based Recommendation and Reservation

- Investigated the design and development of a web-based hotel management system incorporating location-based recommendation and reservation to improve hotel discovery and booking.
- Designed and implemented a location-aware recommendation component using geographical information and user requirements to identify and present relevant hotel options.
- Conducted requirements analysis, system design, implementation, testing, and evaluation, applying software engineering principles throughout the research and development process.
- Received practical training and mentorship in research methodology, academic writing, literature review, data collection, analysis, documentation, and research presentation under the supervision of Dr. J.E.T. Akinsola.
- Assisted with academic and departmental activities, including script marking, preparation and organization of academic documents, record keeping, and other administrative and teaching-support responsibilities.

INDUSTRIAL EXPERIENCE

Frontend Developer Intern **July 2026 – August 2026**
Circo Digital Academy — Orange Internship Programme (Remote)

- Selected as a Frontend Developer and worked as part of a five-member cross-functional product team to research, develop, and deploy a real-world civic technology product through Circo's 8-week Orange Internship programme.
- Served as the sole frontend developer for CleanReport, a civic-tech platform that enables communities to report sanitation and environmental issues, integrating authentication, report submission, image uploads, geolocation, interactive maps, notifications, comments, and administrative features.
- Designed and implemented responsive frontend interfaces using React, TypeScript, JavaScript, HTML, CSS, and modern frontend development practices, integrating the application with a live backend API.
- Conducted code review and resolved identified implementation and security issues, while improving accessibility, SEO, and frontend performance through optimization and code-splitting techniques.
- Contributed to the development of a Progressive Web App (PWA) offline reporting workflow, enabling reports to be queued locally and synchronized when network connectivity is restored.

Full Stack Development Intern **April 2026 – June 2026**
CodeAlpha (Remote)

- Completed a practical Full Stack Development Internship focused on building web applications and strengthening hands-on software engineering skills.
- Developed and worked on full-stack applications using modern frontend and backend technologies, applying principles of component-based development, API integration, database interaction, and responsive web development.
- Strengthened practical experience in React, JavaScript/TypeScript, Node.js, Express, REST APIs, Git, and software development workflows through project-based implementation.
- Applied software engineering practices including problem solving, debugging, version control, documentation, and iterative development throughout the internship.

Data Analyst Intern (Part Time, SIWES) **April 2023 – September 2023**
Coast Research Technology, Ibadan, Oyo State, Nigeria.

- Designed and implemented 10 machine learning models for financial data analysis using Python and SQL, improving prediction accuracy by 25%.
- Built interactive data visualizations and dashboards using Power BI and Tableau to communicate insights to stakeholders.
- Developed a customer churn prediction model using feature engineering and ensemble learning techniques, achieving measurable improvement in retention analysis.
- Assisted in report writing, data interpretation, and led system optimization.

TEACHING EXPERIENCE

Undergraduate Tutor **Sept. 2021 - July 2024**
Department of Computer Sciences, First Technical University, Ibadan Oyo State, Nigeria.

- Tutored approximately 350 undergraduate students weekly in core Computer Science courses, including algorithms, programming, and data structures, contributing to strong academic performance.
- Developed academic materials and solution guides for past examination questions to support students' learning and exam preparation.

Asst. Academic Support Officer **Oct. 2023 – Aug 2024**
Natural and Applied Sciences Student Association (NASSA, First Technical University Student Chapter)

- Taught 100 lower-level students Mathematics and introductory Python programming.
- Organized and facilitated peer tutorials to strengthen students' understanding of foundational concepts.

PROJECTS

CleanReport – Frontend Developer (View) **2026 – Present**

• Built a community sanitation reporting PWA for the Axion Circle team at Circo Orange Group, enabling residents to log and track environmental health issues in their locality.

- Developed offline-capable report submission flows and real-time status tracking features using React, targeting low-connectivity communities across Nigeria.
- Collaborated with the Axion Circle team on user testing, iterative feature refinement, and deployment of the live PWA.

CERTIFICATIONS AND PROFESSIONAL DEVELOPMENTS

Learn Machine Learning and AI **2025**
Udemy

Data Analysis **2024**
Microsoft Digital Skill

Career and Skills Development **2024**
Mind Thrive Africa

LEADERSHIP EXPERIENCE

Welfare Director **Sept. 2023 - Sept. 2024**
Nigeria Association of Computing Student, First Technical University Ibadan.

Academics / Sports Director **Oct. 2023 – Aug. 2024**
Natural and Applied Sciences Student Association, First Technical University Ibadan.

Program Strategist II **Aug. 2023 – July 2024**
Mind Thrive Africa, First Technical University Ibadan.

VOLUNTEERING EXPERIENCE

Member **2025**
Red Cross Society.

Co-organizer **2023 - 2024**
NACOS x GDSC "Intro to Tech" Workshop: Trained 350 students in web development and data analysis.

Member **2021 - 2024**
Rotaract Club of Nigeria, TECH-U Chapter

Faculty Academics Tutor **2021 - 2024**
Faculty of Natural and Applied Sciences Student, First Technical University, Ibadan.

AWARDS AND HONOURS

Oyo State Government Tuition Scholarship **2021 - 2024**
Oyo State Government Scholarship Board, Ministry of Education, Nigeria
Scholarship Value: Over US$10,000 (2021 award value)

Award of Academic and Leadership Excellence **2024**
Natural and Applied Science Student Association.

PROFESSIONAL AFFILIATIONS

Student Member, Nigeria Computer Society (NCS)
Student Member, Natural and Applied Science Student Association (NASSA)
Member, International Association of Engineers (IAENG)
